

Chassis - LSS Gen3 System - Ruger American - SA - LH - Worker - FDE

[Rifle Parts](#) > [Stock Parts](#) > [Rifle Stocks](#)

The MDT LSS GEN3 Worker Kit is built for those who value reliability, portability, and simplicity in one rugged, hard-working platform. Whether you're hunting hogs at dusk, riding the fenceline at first light, or keeping a coyote rifle behind the truck seat, this chassis is always ready to go when you are.

Lightweight, compact, and easy to run, the Worker Kit is designed for real-world use. Toss it in the truck. Strap it to your pack. Hand it to a new shooter or a seasoned rifleman—it simply works. No unnecessary bulk. No complicated setup. Just dependable performance when it matters.

Built for movement, this setup shines whether you're covering miles on foot or hopping in and out of a vehicle all day. It deploys quickly and carries comfortably, making it ideal as a truck gun, ranch rifle, pack build, or even a youth training platform. Whether it's your first rifle or your fifth, this is the kind of build that earns its keep—and gets used hard.

The short forend with durable polymer side panels keeps the profile slim while adding comfort, grip, and temperature resistance where it counts. At the rear, the CCS buttstock maintains a compact footprint without sacrificing ergonomics, giving shooters of all experience levels a stable and intuitive shooting position.

Under the hood, the Worker Kit delivers the same professional-grade features serious shooters rely on. AICS magazine compatibility ensures broad mag options and dependable feeding. The V-block bedding system provides a secure, repeatable action fit without traditional bedding work. M-LOK slots allow you to add accessories as needed, from bipods to slings and beyond.

Though it comes pre-built for convenience, the Worker Kit is powered by the LSS GEN3 Chassis platform at its core—meaning you're never locked into one configuration. Upgrade the stock. Change the grip. Swap the forend for a full-length ARCA setup. It's ready to grow as your needs evolve.

MDT Chassis LSS Gen3 System Safety Instructions

Introduction

Thank you for choosing the MDT Chassis LSS Gen3 System. This product is designed to provide a reliable and efficient platform for shooting activities. To ensure your safety and the longevity of the product, please read and follow these safety instructions carefully.

General Safety Guidelines

- Ensure that the MDT Chassis is used only for its intended purpose as a rifle stock.
- Always treat every firearm as if it is loaded.
- Keep the firearm pointed in a safe direction at all times.
- Store the MDT Chassis and firearm in a secure location, out of reach of children and unauthorized users.
- Familiarize yourself with local laws and regulations regarding firearms and their accessories.
- Regularly inspect the chassis for any signs of wear or damage before use.
- Use only compatible accessories and components as specified by the manufacturer.

Specific Safety Precautions for Use

- When handling the MDT Chassis, ensure your hands are dry and free from any substances that could affect grip.
- Always wear appropriate eye and ear protection when using firearms.
- Avoid using the chassis in wet or slippery conditions to prevent loss of control.
- Do not modify the MDT Chassis in any way that could compromise its structural integrity or safety.
- Be aware of your surroundings and ensure that no one is in the line of fire when using the firearm.
- If you experience any malfunctions or issues with the chassis, cease use immediately and consult a qualified technician.

Instructions for Installation and Usage

1. Installation of the MDT Chassis:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Remove the existing stock from the firearm according to the manufacturer's instructions.
- Align the action of the firearm with the MDT Chassis and secure it using the provided screws and tools.
- Ensure that the chassis is firmly attached and check for any movement.

2. Using the MDT Chassis:

- Adjust the buttstock to your preferred length of pull for comfort.
- Familiarize yourself with the controls and features of the chassis before using it in the field.
- Practice shooting in a safe environment to become accustomed to the feel and handling of the chassis.
- Always follow safe shooting practices and guidelines.

Disposal Instructions

- When disposing of the MDT Chassis, follow local regulations regarding the disposal of firearms and firearm accessories.
- Do not dispose of the chassis in regular household waste. Instead, contact local authorities for proper disposal.

disposal methods.

- If the chassis is damaged beyond repair, ensure it is rendered unusable before disposal.

Contact Information for Further Support

For any inquiries or further assistance regarding the MDT Chassis LSS Gen3 System, please reach out to your local distributor or the manufacturer's customer service. Ensure you have your product details ready for efficient support.

Conclusion

By following these safety instructions, you can maximize your safety and the performance of the MDT Chassis LSS Gen3 System. Always prioritize safety and responsible use when handling firearms and their components. Thank you for your attention to these important guidelines.
